# Amit Kumar Mishra

## SDE -4 FULL STACK (REACT, NODE)

## EDUCATION

**Bachelor In Computer Science**

Barkatullah University : 2011-2014

Maths, Computer Science

**Master's In Computer Science**

APS University

Computer Science, AI

## SKILLS

**ReactJs, JavaScript, NextJs, Redux**
**HTML, CSS, Material, JQuery, TypeScript**
**Nodejs, Ngnix, GatsbyJs, Apache, AWS**
**Azure, Kubs, GraphQL, System Design**

**LLD/HLD, Team Leading, Code Review**

**JIRA, Go, PHP, Shopify, GenAI**

**Jest, Cypress, Enzyme, Testing, Performance, Code Optimizations**

**Hobbies**

Playing Chess

Playing and Watching Cricket

Exploring Techs, GenAI

## PROFILE

Experienced and driven Full Stack Software Engineer Cum Lead Engineer specializing in Node.js, GraphQL, NextJs, Redux, React.js, GatsbyJs, AWS, Live Streaming, and socket programming. Adept at seamlessly bridging the gap between front-end and back-end development. Eagerly pursuing impactful opportunities to apply my comprehensive skillset and years of expertise in crafting innovative solutions for dynamic organizations.

## EXPERIENCE

**Exotel**                                                    **March-2023 to Current**

**SDE-4 || PE Full Stack**

- Lead the creation of innovative solutions by translating business needs into technical designs, Accessibility, optimizing performance, security, and user experience Including low-level high-level design for APIs and UI.
- Mentor and Code with engineers With my expertise in React, and Nodejs, foster technical excellence and collaborate with cross-functional teams to ensure the successful execution of architectural vision while meeting project milestones.
- Analyzed user requirements to develop software solutions and created technical specifications.
- Developed, tested, debugged, and documented software programs using NextJs, JavaScript, React, Nodejs, Next Server, GatsbyJs, Redux, Justnd, Material UI, Bootstrap, Typescript, GraphQL and HTML, and CSS.
- Conducted unit tests on code modules to verify the accuracy and functionality of program logic.
- Implemented automated build and deployment processes for applications with CI and CD tools.
- Monitored system performance and troubleshoot issues in production environment.
- Collaborated with cross-functional teams to ensure quality assurance throughout the development process.

**Exotel**                                                    **March-2022 To March 2023**

**SDE -3 FullStack ReactJs & NodeJs**

- Developed scalable and responsive web applications using Nodejs, React.js, NextJs, Redux, or Vue.js for the front-end, and Socket.io, Express.js, Golang, TypeScript, and databases like MongoDB or MySQL for the back-end

## ACCOMPLISHMENTS

Best Employee award By Prevoius Employer Linkites

Best Achievement Award By Current Employer – Exotel

Excellent Coder React, Nextjs By AWS.

## POPULAR PROJECTS

**The Suburban Jungle Group (Real State)**

Tech: NextJs, ReactJs, Nodejs

Url: https://suburbanjunglegroup.com/

**VideoVerse (Video Streaming, Multi Media)**

Tech: NextJs, ReactJs, Nodejs, JQuery, Angular

Url: https://vverse.ai/

**The Container Store (E–comm)**

Tech: NextJs, ReactJs, Nodejs, Redux

Url: https://www.containerstore.com/

**MisStreet Capital (FinTech)**

Tech: NextJs, ReactJs, Nodejs, GraphQL

Url: https://midstreetcapital.com/

**Exotel Messaging and ECC Platform**

Tech: NextJs, ReactJs, Nodejs, GoLang, Justand

Url: https://messaging.exotel.com/

---

- Collaborated closely with product managers, designers, and stakeholders to gather requirements and implement new features
- Mentored junior developers and conducted code reviews to ensure high code quality and foster professional growth
- Actively participated in Agile development processes, including sprint planning, daily stand-ups, and retrospectives.
- Developed and implemented software solutions to improve system performance and scalability.
- Reviewed code written by other developers for quality assurance purposes.
- Designed, tested, and deployed new features and bug fixes to the production environment.
- Created technical documentation for user manuals, release notes, and installation guides.

**Linkites Infotech (VideoVerse)**          **March 2016 – March 2022**

**Senior Software Engineer Tech Lead**

- Contributed to full-stack development of web applications using HTML, CSS, JavaScript, TypeScript frameworks for UI/UX, and Node.js, Express.js for server-side logic and APIs
- Evaluated and adopted new technologies and frameworks to enhance development processes, including designing PWAs with Material UI, Antd, and Bootstrap in React and Redux.
- Designed and implemented user interfaces for web-based applications.
- Provided technical assistance to junior developers in debugging code.
- Created efficient algorithms to optimize existing systems.
- Monitored system performance and identified areas of improvement.
- Performed unit testing on application components before release.
- Collaborated with team members to ensure successful project completion within timeline constraints.
- Documented software development processes and procedures for future use.
- Mentored junior staff members in coding best practices and problem-solving techniques.
- Evaluated customer requirements and provided cost estimates for products.

**Neepanlok Infotech**          **Jan–2015 To Feb–2016**

**Software Development Engineer**

- Developed reusable web applications using WordPress, jQuery, Ajax, JSON, and JavaScript
- Designed CSS-based layouts using Bootstrap for responsive web design
- Performed initial client assessments and research analysis to initiate development projects.
- Developed, tested, debugged and documented software programs using
- PHP, WordPress, Shopify, JavaScript and HTML and CSS.
- Implemented automated build and deployment processes for
- applications with CI and CD tools.
